

## Year 2 Maths Activity Grid

### Year 2 maths skills checklist:

- ✓ I can read and write numbers in numerals up to 100.
- ✓ I can partition a two-digit number into tens and ones to demonstrate an understanding of place value, though I may use structured resources to support me.
- ✓ I can add and subtract two-digit numbers and ones, and two-digit numbers and tens, where no regrouping is required, explaining my method verbally, in pictures or using apparatus (e.g.  $23 + 5$ ;  $46 + 20$ ;  $16 - 5$ ;  $88 - 30$ ).
- ✓ I can recall at least four of the six number bonds for 10 and reason about associated facts (e.g.  $6 + 4 = 10$ , therefore  $4 + 6 = 10$  and  $10 - 6 = 4$ ).
- ✓ I can count in twos, fives and tens from 0 and use this to solve problems.
- ✓ I know the value of different coins.
- ✓ I can name some common 2D and 3D shapes from a group of shapes or from pictures of the shapes and describe some of their properties (e.g. triangles, rectangles, squares, circles, cuboids, cubes, pyramids and spheres).
- ✓ I can read scales in divisions of ones, twos, fives and tens.
- ✓ I can partition any two-digit number into different combinations of tens and ones, explaining my thinking verbally, in pictures or using apparatus.
- ✓ I can add and subtract any 2 two-digit numbers using an efficient strategy, explaining my method verbally, in pictures or using apparatus (e.g.  $48 + 35$ ;  $72 - 17$ ).
- ✓ I can recall all number bonds to and within 10 and use these to reason with and calculate bonds to and within 20, recognising other associated additive relationships (e.g. If  $7 + 3 = 10$ , then  $17 + 3 = 20$ ; if  $7 - 3 = 4$ , then  $17 - 3 = 14$ ; leading to if  $14 + 3 = 17$ , then  $3 + 14 = 17$ ,  $17 - 14 = 3$  and  $17 - 3 = 14$ ).
- ✓ I can recall multiplication and division facts for 2, 5 and 10 and use them to solve simple problems, demonstrating an understanding of commutativity as necessary.
- ✓ I can identify  $1/4$ ,  $1/3$ ,  $1/2$ ,  $2/4$ ,  $3/4$ , of a number or shape, and know that all parts must be equal parts of the whole.
- ✓ I can use different coins to make the same amount.
- ✓ I can read the time on a clock to the nearest 15 minutes.
- ✓ I can name and describe properties of 2D and 3D shapes, including number of sides, vertices, edges, faces and lines of symmetry.

**Choose an activity from below and complete it on squared paper if possible. Remember to add the date.**

<p style="text-align: center;"><b>Timeline</b></p> <p>Can you keep a timeline of what you do in a day? Write the correct time next to what you did. Challenge: Can you write your time in 12hr digital? E.g. half past 6 = 6:30</p> 	<p style="text-align: center;"><b>Shape Hunt</b></p> <p>Go on a shape hunt around your house. Draw and label the names of 2D and 3D shapes you can see around your house. Challenge: Label the number of sides and corners (vertices).</p> 	<p style="text-align: center;"><b>Number Talk</b></p> <p>Choose a number from 20-99. How many different ways can you portion the number? E.g. <math>24 = 14+10</math> or <math>15+9</math> or <math>12+12</math></p> 	<p style="text-align: center;"><b>Money</b></p> <p>Play shops at home and record what you bought and what coins you used to buy them. How many different ways can you make 50p using coins?</p> 
<p style="text-align: center;"><b>Measure</b></p> <p>Practise using a ruler to measure small items around the house in centimetres. E.g. a pen, coin, rubber, toy etc. Record your results. Challenge: draw and complete a chart to list items shorter or longer than 10cm.</p>	<p style="text-align: center;"><b>Time</b></p> <p>Using a clock online or in the house, practise telling the time to half past, quarter past and o'clock times. Record the times. Challenge: Can you write your time in 12hr digital? E.g. half past 2 = 2:30</p> 	<p style="text-align: center;"><b>Fractions</b></p> <p>Can you find <math>1/2</math>, <math>1/4</math> and a <math>3/4</math> of the numbers below? 4, 8, 12, 16, 20, 24, 28 Choose any even number up to 50 and then half the number. Repeat 5 times.</p> 	<p style="text-align: center;"><b>Addition/Subtraction</b></p> <p>Choose two numbers between 20 and 99 (e.g. 35 and 21). Can you add and subtract using the chosen numbers? Write the number sentence and show your working out. (e.g. <math>35 + 21 = 56</math> <math>35 - 21 = 14</math>)</p>

<p><b>Times tables</b></p> <p>Write down the 2, 5 and 10 times tables. Can you say them in order to an adult? Can you mix it up? Challenge: 3x table.</p> 	<p><b>Shape Art</b></p> <p>Draw a picture using different 2D shapes. Label the shapes with their name, number of sides and number of corners (vertices).</p> 	<p><b>Number Talk</b></p> <p>Can you record all the possible ways to make 100? Use your knowledge of number bonds to help.</p> 	<p><b>Measure</b></p> <p>Using your hands and feet, can you measure various rooms and objects in your house? Record how many feet or hand spans they measured.</p> 
<p><b>Counting</b></p> <p>Start from 26. Can you count forwards and backwards in twos and fives from this number? Record the numbers.</p> 	<p><b>Numbers in Words</b></p> <p>Can you write numbers 0-100 in words and spell them all correctly? Challenge: Choose 5 numbers you have written in words and order them, largest first.</p>	<p><b>Measure</b></p> <p>Follow a recipe with an adult. Measure out all the ingredients you use and record them.</p> 	<p><b>Times Tables</b></p> <p>Download the SUMDOG app, login and complete the activities given. Please focus on the 2, 3, 5 and 10 times tables.</p>
